Dear Parents / Guardians,

Self-improvement Scheme

In order to nourish our students to develop a sense of self-encouragement as well as self-improvement, our School has implemented a 'Self-improvement Scheme'. Details are as follows:

(I) The Scheme in details:

- 1) Students are encouraged to apply for the Scheme of their own accord.
- 2) On top of the merits attained by representing our School through different competitions, the merits gained this year can replace the demerits. Once an application has been accepted, both will not be printed on the school result transcript.
- 3) The Plan can only be applied on a one-merit-to-one-demerit basis. If a student gets two demerits in a single incident, he or she is not qualified to apply for this Scheme. For instance, if one gets two demerits due to breaking the rule of 'Improper Behaviours in School', he or she cannot apply for the Scheme as it is not possible to replace two demerits with two merits.
- 4) Students concerned have to make application within the specific period. There is no limits on the number of demerits being offset.

(II) Application method: Within specific period, students concerned proactively ask the class teacher for the application form. After filling out the form, students concerned return the form to the class teacher for verification.

(III)

Period of application for S.6 students: 30/1/2023 - 3/2/2023*

*After 9/12/2022, all merits/demerits are not applicable to the 'Self-improvement Scheme'

Period of application for S.1 to S.5 students: 5/6/2023 - 19/6/2023*

*After 19/5/2023, all merits/demerits are not applicable to the 'Self-improvement Scheme'

Thank you for your attention.

Dear Parents / Guardians,

Intranet Information, Email System and Student Smart Card

To enable parents and students to receive updated information from our school as soon as possible, our school encourages parents and students to check our school's webpage (<http://locktao.edu.hk>) regularly. Our school's email system (Gmail) is not only a teaching platform, but also a communication tool between teachers and students and a tool for the delivery of messages. The school has already created email accounts for every student. The use of these services will be taught in junior secondary technology education lessons. Students should login to the email system (Gmail) to check the messages to get the latest information about the school.

We have adopted the Smart School system from HKT to provide e -notice, e-payment and e-attendance services. After installing the HKT Smart School App and Tap & Go mobile applications, parents will read notices, make payments and check their child's attendance record using smartphones. This app does not only strengthen the communication between our school and parents, but also reduce the risk of students bringing large amount of cash to the school which eventually increases our school's management effectiveness.

The student's smart card is regarded as the identity card within the school. Every student should keep it carefully and bring it to school every day for taking attendance until he / she graduates and leaves the school. New students must pay **\$30** for issuing the new smart cards. Afterwards, if a student requires a re-issuance his / her smart card, he / she will have to pay **\$30**.

Thank you for your attention.

Dear Parents / Guardians,

Permission to publish students' works and images

It has been a usual practice for teachers to select excellent works or images to publish them in our school publications or websites in order to enhance teaching and learning. As we believe that it could help promote students' creativity, encourage cooperative learning and honor the quality of their works. It also cultivates students' holistic development. Parents could also have a better understanding of students' school life.

In view of the above, we need to have your consensus. Parents who do not agree with the stated arrangement should choose to write a letter to school.
